

Chicago Women's Health Center
Development Internship - Academic Year 2020-2021

Chicago Women's Health Center (CWHC) was established in 1975 as a feminist health collective. CWHC's mission is to facilitate the empowerment of women, trans people, and young people by providing health care and health education in a respectful environment where clients pay what they can afford. CWHC does this through the following programs: Primary Care, Gynecology, Counseling, Alternative Insemination, Integrative Health, and Outreach & Education. All services are provided on a sliding scale and regardless of a client's ability to pay. CWHC values diversity, striving to represent the communities it serves and to be affirming of all identities and life experiences. CWHC's modified collective structure means that every member has input into policy decisions and shares responsibility for the work of the organization.
